

Bahaa-el-din 2012 : Observations on a captive African golden cat. Cat News 57, 15.
Additional photos (all by L. Bahaa-el-din):

The captive African golden cat has a grey coat largely covered in darker spots with a white, darkly spotted and dewlapped belly

The young golden leaps at a large, note the dorsal piloerection

The golden cat uses a tree trunk as a scratching post.

The golden cat plays alone with a ball.
